

[illegible]

On February 14, 2007, representatives of the American Radio Relay League (ARRL), also claiming to be known as the National Association for Amateur Radio, met with Commission Staff regarding Rulemaking RM-11306. The meeting was noticed after-the-fact as an *ex-parte* communication in the Commission's Electronic Comment Filing System (ECFS). As part and

parcel to that meeting, lengthy and substantial revisions to RM-11306 were submitted for Wireless Telecommunications Bureau staff to consider.

Many amateur radio licensees have discovered the February 14 meeting and revisions to RM-11306 and have filed Comments in the Proceeding via ECFS. However, since these Comments are long after the official comment time period closed, the Commission may or may not consider them in any subsequent Rulemaking.

Therefore, I hereby MOVE that the Commission consider all Comments received into the RM-11306 Record since the February 14, 2007 meeting with ARRL as timely filed. This MOTION FOR AN EXTENSION OF TIME is not intended to substitute for, or replace my MOTION submitted on March 24, 2007, which seeks to either DENY RM-11306, or re-open the Proceeding with proper public notice so that submitted revisions may receive adequate commentary.

Respectfully Submitted this 25th day of March, 2007.
